Skills

- **Languages**: C++, JavaScript, Java, Python
- **Frameworks:** React.js, Tailwind CSS, AWT, Swing, Node.js,Express JS
- **Platforms**: Git, VS Code,Postman,MongoDb Atlas
- **Soft Skills**: Problem-Solving, Teamwork, Analytical Thinking, Adaptability, Time Management, Decision-making

Projects

- **Job Portal|** 🔗 *Feb' 2026*
  - Developed a full-stack Job Portal application with separate login systems for job seekers and employers, implementing role-based access control.
  - Implemented secure JWT-based authentication and authorization, protecting API routes and enabling stateless session management.
  - Integrated Google and GitHub OAuth login, improving user onboarding and providing secure third-party authentication.
  - Built RESTful APIs using Node.js and Express.js, connected to MongoDB for managing users, job postings, and applications.
  - Implemented secure resume upload functionality using Multer middleware and deployed the frontend on Vercel with proper environment configuration..

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, OAuth (Google & GitHub), Multer, Vercel

- **Student Performance Prediction|** 🔗 *Jan' 2026*
  - Built a Student Performance Prediction ML model in Jupyter Notebook by training models with and without previous academic scores to analyze their impact on prediction accuracy.
  - Implemented and compared Linear Regression and Random Forest models, evaluating performance using R^2 Score and MAE to understand feature dependency and model behavior.
  - Conducted EDA and feature impact analysis, showing how exclusion of previous scores changes model reliability and real-world applicability.

Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Linear Regression, Random Forest, R^2 & MAE

Summer Training

- **Fundamental of Data Structure: Learn, Apply and Build Projects** | 🔗 *Jul' 2025*
  Lovely Professional University (LPU)
  - Built a strong foundation in Data Structures (Arrays, Linked Lists, Stacks, Queues, Trees, Graphs) and implemented optimized algorithms such as Binary Search, Merge Sort, Quick Sort, and Recursion with time-complexity analysis (Big-O).
  - Developed a **Student Record Management System** using Java Swing & AWT, implementing full CRUD functionality with structured data handling and modular design.
  - Applied Object-Oriented Programming (OOP) principles to create scalable, reusable, and maintainable code architecture.
  - Integrated GUI components (JFrame, JTable, JButton, JTextField) with backend logic to ensure real-time data updates and a smooth user experience.
  - Enhanced analytical thinking and problem-solving skills through extensive hands-on coding practice and project-based implementation.

Tech Stack Used: Java (Core), Java Swing, AWT

Certificates

- ChatGPT-4 Prompt Engineering – Generative AI & LLM | Infosys | 🔗 *Sept' 2025*
- Build Generative AI Apps and Solutions with No-Code Tools | Infosys | 🔗 *Sept' 2025*
- Cloud Computing | NPTEL | 🔗 *Apr' 2025*

Extra-Curricular Activity

- Child Right and Education | N.R Ashirwad Foundation | 🔗 *Jun' 2024*
- Code of Duty – A Web Hackathon | LPU | 🔗 *Mar' 2024*

Education

- **Lovely Professional University** Jalandhar, Punjab
  Bachelor of Technology - Computer Science and Engineering: ***CGPA: 8.37*** *Since Aug' 2023*
- **Adarsh Vidya Mandir** Bokaro Steel City, Jharkhand
  Intermediate: ***Percentage: 88.6%*** *Apr' 2022 - Mar' 2022*
- **Adarsh Vidya Mandir** Bokaro Steel City, Jharkhand
  Matriculation: ***Percentage: 88%*** *Apr' 2020* - Mar' 2020
